**PORTLAND PIE COMPANY AND BUSINESS INTERIORS JOIN THE  
NEWLY RENOVATED EDWARDS BLOCK**

**WESTBROOK, ME – (April 24, 2006)** – Upon completion of the old Warren’s Furniture Building, the newly renovated and newly named ‘Edwards Block’ will welcome Portland Pie Co. and Business Interiors as its first tenants. The new Westbrook location is Portland Pie Company’s third location and Business Interiors third satellite store.

Portland Pie Company is a take-out business specializing in premium gourmet pizza with flavored pizza dough. In 2001, after four years of steady growth delivering pizza in Portland, PPC opened a second retail location in South Portland to service the growing demand for gourmet pizza delivery in that market. Portland Pie Company will now be able to serve its customers in the Westbrook/Gorham area through its latest location in the Edwards Block.

Business Interiors helps businesses and other workplaces outfit their offices to create productive and efficient work environments. Business Interiors currently has sales offices, showrooms and distribution facilities in Brattleboro and Williston, VT and satellite offices in Rutland and in Sunapee, N.H. The company’s approximately 35 employees work with clients throughout Vermont, New Hampshire, northwestern Massachusetts and soon Maine.

Thomas Moulton, CCIM, SIOR and Katherine Allen of NAI The Dunham Group co-brokered the lease agreements between Portland Pie Co. and Business Interiors and T & T Development, LLC with Marc Fishman of Fishman Realty Group. The Edwards Block has undergone a complete floor to ceiling renovation over the past several months. There are currently multiple retail and office suites available for lease in the Edwards Block. For more information contact NAI The Dunham Group @ 207-773-7100.

NAI The Dunham Group is a locally owned company and established leader of Maine’s commercial real estate industry for more than 30 years. Our market-specific team approach means working with knowledgeable brokers who specialize in the office, industrial, retail or investment real estate markets. These highly trained individuals along with a support staff of experienced marketing and research professionals collaborate to track available properties, monitor changing commercial real estate values, and forecast market trends.
