EXECUTIVE SUMMARY

The Dunham Group is pleased to offer Steep Falls Building Supply and its real estate, a 13,236± SF building on 9.63± acres, for sale.

Steep Falls Building Supply was founded in 1973, supplying building materials and supplies to the area contractors and do-it-yourself homeowners. The business is located in Standish, Maine on Route 25/Ossipee Trail West. Route 25 is a major artery connecting the westerly towns and cities of the Greater Portland area. Its primary trade area encompasses a 20-mile radius which includes some of the Maine's higher income demographics. Today, the business is a thriving full-service hardware and building supply that provides a full line of building products that cater to the professional contractor; including lumber, trusses, roofing, windows doors, plumbing and electrical. A significant revenue generator are special orders which include non-stock items related to a specific building project. These products are sold at a higher profit margin and do not incur inventory stocking and holding expense. They are most often ordered by the professional builder looking for one-stop purchases of all the materials needed to complete the project.

In 1997, Steep Falls Building Supply became a member of the True Value whole sale cooperative. This gave its hardware business a globally recognized name with an expansive selection of products at competitive pricing and the power of its marketing platform.

- New Signage
 - Road Sign with new LED marquis
 - Vehicle Graphics
 - Building Signs, on top of the red deck roofs
- New Covered Front Decks
 - Over 700 SF of covered outdoor retail space
 - Composite Decking in different colors
 - Finished ceilings to display products
 - Bright red metal roofing to attract customers
 - New interior flooring
- Added over 3000 new SKUs of relevant products both for retail and commercial customer needs.
 - Added three window suppliers
 - Added two new door suppliers
- Added www.steepfallsbuildingsupply.com e-commerce website which has driven up sales both through orders on the site and also by allowing customers to source the products they need driving them to the store to purchase.
- Added the UPS shipping counter which pays for itself and more importantly brings customers into the store where they purchase other retail items.
- Added Benjamin Moore Paint which dramatically increased paint sales.
 - Added new computerized tinting machine
 - Added a new multi-gallon paint shaker
 - Updated the color-matching spectrometer to match paint to any color sample.
- Added the Kenworth delivery truck equipped with Moffett forklift attachment
- Built a new covered Propane dispensing center which increased propane sales.
